Who we are

Tekno Spedizioni is a shipping company founded in 1995 in Carrara by an idea of 3 partners called Carlo Del Sante, Giorgio Benfatto and Alfio Moscardini who, after a long experience matured as shippers and port operators, they decided to join forces to create a company able to offer global logistics services at an international level.

Today Tekno Spedizioni is an established and solid reality where the seriousness and technical knowledge are distinguished within the global market and its close-knit and qualified team considers each individual customer as a person and not as a number.

Mission & Vision

Our mission is to make the difference in the market by investing in technologies and people to meet the needs of our customers, offering a high quality standard operational consulting service.

Our vision is to be able to provide global logistics services around the world in respect of people of safety and the environment.

Our Goals

Constantly increase the level and quality of the service we offer to our customers.

Keep processes constantly updated digitization and computer evolution company.

Be consistent with the QHSE (Quality, Health, Safety and the Environment)

Our data

Reasons to choose

People

The added value of Tekno Spedizioni is the peculiar and careful relationship established with the customer who is fully followed and assisted.

Choosing Tekno Spedizioni means relying on a highly qualified team that will be able to assist the client during all the phases of the project.

Innovation

We strongly believe that the supply chain logistics and management must support the customer and to keep themselves update.

From the booking request to the delivery of the goods, Tekno Spedizioni guarantees accuracy and precision in the execution of the processes, always keeping an eye on innovation.

Network

Since the year of its foundation, Tekno Spedizioni has tried to create a network of efficient, reliable and qualified correspondents all over the world to reach all the destinations required for both import and export.

Document Control

One of the most important aspects during the carrying out of shipping practices is document control, a small error in a practice can create great problems.

The Tekno Spedizioni team is always attentive thanks to a multiple control system which guarantees the elimination of possible errors.

The Competitive Advantage

We collaborate with the best carriers on the market, this provides the best technical and economic solution for the customer.
